RETIREMENT SYSTEM INVESTMENT COMMISSION

December 9, 2019

The Honorable Henry D. McMaster, Governor
Members of the State Fiscal Accountability Authority
Members of the General Assembly of South Carolina

RE: 2018-2019 Annual Investment Report

Dear Ladies and Gentlemen:

On behalf of the South Carolina Retirement System Investment Commission (RSIC), it is my pleasure to provide the enclosed report on the investments performance of the South Carolina Retirement Systems portfolio for Fiscal Year Ended 2019.

For the Fiscal Year Ended June 30, 2019, the RSIC's investment portfolio performance achieved a 5.84 percent return net of management fees. Although the return for this past fiscal year did not exceed the assumed rate of return of 7.25, it did follow two fiscal years of strong performance which have resulted in a three-year rate of return of 8.48 percent.

The portfolio's positive investment performance resulted in a \$31.98 billion ending value of the portfolio versus an ending value of \$31.3 billion for the previous fiscal year. The increased total asset value resulted from a \$1.76 billion net inflow from investment performance which was offset by an outflow of \$1.08 billion in net benefit payments.

The portfolio did experience the resurgence of market volatility during the fiscal year, most notably during the market downturn in December of 2018. However, markets quickly recovered during the first half of calendar year 2019, more than erasing the losses experienced in December. Due to the market recovery, the portfolio was able to finish the year in positive territory, an outcome that seemed unlikely during the December 2018 sell-off. Equity markets have continued to rise during the second half of 2019 and the portfolio has benefited from this strong performance.

2018-2019 ANNUAL INVESTMENT REPORT

As always, we continue to be mindful that despite short-term volatility in the markets, we are long term investors charged with earning an investment return that not only helps provide promised benefits to our current retirees, but also to our future beneficiaries. We believe that our portfolio is well positioned to meet this long-term objective.

We continue to be humbled by the faith and trust placed in RSIC to invest and manage the assets of our State's retirement plans and the over 500,000 plan beneficiaries. We also greatly appreciate the support that you have provided not only to RSIC, but more importantly to the public servants of South Carolina we are privileged to serve.

Sincerely,

Ronald P. Wilder, Chair

CONSULTANT LETTER

MEMORANDUM

To: The Honorable Henry McMaster, Governor
 State Fiscal Accountability Authority
 Members of the General Assembly

From: Meketa Investment Group

Date: September 10, 2019

Re: Fiscal Year Ending June 30, 2019 Review

As the general investment consultant for the Retirement System Investment Commission (RSIC) of South Carolina, Meketa Investment Group is pleased to present this summary of the fiscal year events and investment performance of the South Carolina Retirement System (SCRS) investment portfolio for the fiscal year ending June 30, 2019.

FISCAL 2019 MARKET ENVIRONMENT REVIEW

While the early start of fiscal 2019 may have been characterized by worries of rising interest rates globally, this quickly shifted throughout the fiscal year as increasing concerns of a slowing global growth – made worse by trade tensions between the U.S. and China – prompted major central banks to consider more accommodative policies. In the U.S., the Federal Reserve reversed its prior course and cut interest rates. The European Central Bank (ECB) for its part held rates steady with a potential for further reduction, while the Bank of Japan showed no signs of pulling back from its unprecedented monetary stimulus. Of all the central banks, the U.S. has the most room to lower rates, while Japan and Europe are already in negative territory. With growth revisions for 2019 and 2020 (IMF forecast of 3.2% and 3.5% respectively) down by 0.1%, key risks to monitor will not only be continued trade tensions between U.S. and China, but the declining growth in China, political uncertainty in Europe, and risks related to Brexit dealings.

While global equities rebounded significantly from the lows of December 2018, the past twelve months certainly saw heightened volatility, with the VIX reaching 36 in December 2018 before re-tracing to 25 and further retreating to more muted levels by the June 30, 2019 fiscal year end. Nonetheless, for much of the fiscal year, most markets embraced a “risk on” appetite.

U.S. equities, as represented by the Russell 3000 Index, closed out the fiscal year with a 8.98% return. Non-U.S. equity markets, however, did not fare as well. Emerging markets delivered negative returns in the first half of the fiscal year, to close out the fiscal year with a 1.21% return. Trade tensions and a strong U.S. dollar strength continued to weigh down on results. The MSCI EAFE Index, representing foreign developed markets, followed closely behind returning 1.08%. Overall growth declined in Europe given the slowdown in Germany, uncertainties related to Brexit, and trade tensions.

2018-2019 ANNUAL INVESTMENT REPORT

Memorandum

September 10, 2019

Page 2 of 4

The trend of U.S. growth stocks outperforming value stocks persisted throughout the fiscal year, with growth holding a 3.26% lead over value, as the Russell 3000 Growth closed out the fiscal year with a 10.6% return, versus 7.34% for the Russell 3000 Value.

Within fixed income, investment grade markets closed out the fiscal year on a strong note. Throughout the first half of FY 2019, concerns over rising interest rates and inflation created headwinds. In the U.S., the Federal Reserve increased short-term interest rates to a range of 2.25% to 2.50% by December but this hawkish stance turned dovish in the second half of the fiscal year as central banks abruptly shifted to a more accommodative policy by early January 2019. Investment grade credit and high yield rebounded alongside the equity markets as a result, with the high yield market posting one of the strongest quarterly returns in nearly 10 years (7.26% for the quarter ending March 31, 2019). Despite this, the deterioration of U.S. and Chinese trade talk in May 2019 prompted a temporary drop in global equity prices and U.S. Treasury yields. The 3mo-10yr segment of the yield curve inverted for the second time in 2019, causing investors to question whether this might be a sign of worse things to come. Historically, the yield curve has been relied on as a barometer of economic strength and potential recession indicator. Inversions in the yield curve have historically preceded recessions, with a few exceptions.

Over the trailing fiscal year, the broad U.S. bond market, represented by the Bloomberg Barclays Aggregate Index, returned 7.87%, high yield bonds returned 7.48%, TIPS returned 4.84% and emerging market bonds (as represented by JPM GBI-EM Global Diversified Index) posted a 8.99% return for the fiscal year.

Within other asset classes, natural resource stocks (S&P Global Natural Resources Index) returned -4.02%, commodities (Bloomberg Commodity Index) lost -6.75%, and REITs (MSCI U.S. REIT Index) gained 9.66%. U.S. crude settled at \$58.72/barrel, down roughly 5% from prior fiscal year end levels, but well above the December 31, 2018 value of \$40.41. OPEC-led production cuts along with sanctions on Iran and Venezuela drove the higher prices though tempered by the slowing global economy.

LOOKING FORWARD

Looking forward, there are several issues that we will continue to monitor. First is slowing global growth. After increasing rates over the last several years from record lows, major central banks have shifted to a more accommodative stance. With little room for a reduction in rates outside the U.S., there is speculation of other policy measures being implemented, such as negative rates and/or further quantitative easing. Outside of the U.S., European economic conditions appear bleak as we continue to witness political uncertainty and ongoing structural issues. Brexit negotiations remain a concern. Within emerging markets, and China specifically, growth has slowed. Second, in the U.S., equity markets remain extended despite the volatility spike in the fourth quarter of 2018, and the current economic cycle has been one of the longest on record, now going into the tenth year. Also in the U.S., trade policy remains a key issue. We also see declining growth in China amid the impact of trade tensions with the U.S.

RETIREMENT SYSTEM INVESTMENT COMMISSION

Memorandum
September 10, 2019
Page 3 of 4

The U.S. economy and equity markets have experienced a long period of growth since the Global Financial Crisis due in part to central bank support. Late cycle dynamics of low unemployment and rising inflation are in place, and valuations are stretched for equities, despite the recent pullback witnessed in December 2018. With the long economic and market expansions, and the many unresolved political and trade issues, we could see heightened volatility in the remainder of calendar year 2019. Other key issues in the U.S. will be policy uncertainty related to tariffs, immigration, and strategic alliances.

China has the second largest economy behind the U.S. After an extended period of growth driven by government investment and exports, it continues to manage a repositioning of its economy to one based increasingly on domestic consumption. This rebalancing process has led to a slowing of the economy which has hurt countries that have become reliant on its trade. The recent focus on tariffs between the U.S. and China is another key issue that could have a disproportionately negative impact on China, as the U.S. is one of their largest export destinations (18% of exports). Another core issue in China remains its high debt levels, particularly in the corporate sector.

Europe continues to have the structural problem of maintaining a single currency and central bank, while fiscal policy rests with each individual country. Consequently, countries that are experiencing financial difficulties are unable to use the traditional tools of lowering interest rates and devaluing their currency to stimulate growth. This has caused tensions within the Eurozone, as highlighted by the recent elections in Italy and the prior elections in Germany, as well as the on-going issues in Greece. Given the size of Italy's bond market and economy within the euro area, an Italian sovereign debt crisis or its departure from the euro could have significant consequences. Further, Brexit uncertainty continues to affect the Eurozone. We will continue to monitor these issues and others.

SCRS INVESTMENT RESULTS¹

As of June 30, 2019, the SCRS investment portfolio totaled \$31.98 billion. This represented an increase of \$674 million from June 30, 2018. Investment gains of \$1.76 billion were partially offset by net outflows of -\$1.08 billion in net benefit payments. SCRS generated a net return of 5.8%, underperforming the 6.5% return of its Policy Index. Over longer trailing periods, SCRS is outperforming its Policy Index and outperforming its actuarial rate of return. For example, the ten-year trailing net return for SCRS as of June 30, 2019 was 8.3% vs. a Policy Benchmark return of 7.7%.

The portfolio's asset allocation as of fiscal year-end is provided in the following table. All investments were consistent with the targets and ranges set forth in the Annual Investment Plan and in the Statement of Investment Objectives and Policy.

¹ SCRS returns are from BNY Mellon and are time-weighted, total return calculations, net of fees and expenses.

OVERVIEW

PURPOSE & DUTIES

The South Carolina Retirement System Investment Commission (RSIC) is an independent agency of the State responsible for investing the assets held in trust for South Carolina's public pension. There are five defined benefit plans that comprise the public pension. Collectively, the defined benefit plans are referred to as the ("Retirement System") or the ("Systems"). The defined benefit plans are:

- South Carolina Retirement System (SCRS)
- Police Officers Retirement System (PORS)
- Judges and Solicitors Retirement System (JSRS)
- General Assembly Retirement System (GARS)
- South Carolina National Guard Retirement System Plan (SCNG Plan)

The assets of the Retirement System are invested in conformity with the requirements of South Carolina law. The law requires the RSIC to make investment decisions and conduct every aspect of its operations in the best financial interest of the trust.

The RSIC's long-term goal is to provide cost-effective management of the funds held in trust. This is achieved through a highly diversified portfolio designed to achieve an optimum investment return balanced with a prudent level of portfolio risk. The RSIC's investments are managed by its own professional staff and outside management firms.

The RSIC is governed by eight commissioners; six appointed members, one elected member, and one ex officio non-voting member. As of Fiscal Year End (FYE) 2019, members of the RSIC Commission ("Commission") are: Ronald P. Wilder, Ph.D., Chair; Rebecca M. Gunnlaugsson, Ph.D., Vice Chair; Edward Giobbe, MBA; Reynolds Williams, J.D., CFP; Allen R. Gillespie, CFA; William (Bill) Condon, J.D., M.A., CPA; William (Bill) Hancock CPA.; and Peggy G. Boykin, CPA.

HISTORY

The RSIC was created under the State Retirement System Preservation and Investment Reform Act (Act 153). In October 2005, the Commission was established and devolved fiduciary responsibility for all investments of the Retirement System upon the RSIC. Act 153 also mandated that equity investments cannot exceed 70% (formerly 40%) of the Total Plan Portfolio (Portfolio) and created the position of Chief Investment Officer.

The assets of the Retirement System had historically been invested only in fixed income investments until a constitutional amendment was ratified in 1997. The amendment allowed the RSIC to invest in "equity securities of a corporation within the United States that is registered on a national securities exchange as provided in the Securities Exchange Act, 1934, or a successor act, or quoted through the National Association of Securities Dealers Automatic Quotation System, or a similar service" (SC Constitution Article X, §16). The Retirement System began investing in equities in June 1999, although full diversification of the Portfolio remained constrained by the State Constitution. In November 2006, a constitutional amendment allowing for full diversification of the Retirement System's Portfolio was approved in a statewide referendum and subsequently ratified by the Legislature in February 2007.

The Retirement Funding and Administration Act of 2017 expands the Commission to 8 members and allows for delegation to the CIO under the direct oversight of the CEO the authority to invest up to 2% of the assets of each investment. It also prohibits the use of placement agents, defines the custodian of the retirement system as PEBA and assigns the choice of the custodial bank to RSIC.

2018-2019 ANNUAL INVESTMENT REPORT

DISCLOSURE OF MATERIAL INTEREST

As of June 30, 2019, there was no material interest noted by the Commission or an employee who is a fiduciary with respect to investment and management of assets of the Retirement System, or by a related person, in a material transaction with the Retirement System within the last three years nor in any proposed material transaction of the Retirement System.

PLACEMENT AGENT

All investments approved and closed during FYE 2019 follow the RSIC's Placement Agent Policy ("Policy"). The Policy requires representation by the investment manager that no compensation was paid to a placement agent (as defined by State law) as a result of an investment by the Retirement System. During FYE 2019, all Policy-required disclosures by new investment managers indicated that no compensation was paid to a placement agent in connection with the RSIC's investment.

RETIREMENT SYSTEM INVESTMENT COMMISSION

COMMISSION

RONALD WILDER

Ph. D., Chair

*Retiree Representative
Elected by the Commission*

Dr. Ronald Wilder is a Distinguished Professor Emeritus of Economics at the Darla Moore School of Business, University of South Carolina, where he conducted research and taught courses in microeconomics, managerial economics, industrial organization, government and business, and health economics.

Dr. Wilder earned a B.A. and M.A. in Economics at Rice University, and a Ph.D. in Economics at Vanderbilt University.

REBECCA GUNNLAUGSSON

Ph. D., Vice Chair

Appointed by the Comptroller General

Dr. Rebecca Gunnlaugsson is an economist specializing in public finance and labor economics with proficiency in statistical data analysis and econometric modeling. She has extensive experience in business consulting concentrating on strategic planning, project management, and firm-wide technology implementation.

Dr. Gunnlaugsson has served as the Director of the Division of Research and subsequently Chief Economist at the South Carolina Department of Commerce. In these roles, she directed federally funded Department of Labor programs responsible for the development of state and local occupation growth projections, industry cluster analysis, and workforce program evaluation. Additionally, she led research teams conducting economic and fiscal impact analyses of economic issues impacting South Carolina, including state, local, public, and private infrastructure and development projects. She has done extensive research on taxation and optimization for long-term economic growth, having testified before the 2010 South Carolina Tax Realignment Commission (TRAC) and the 2017 South Carolina House Tax Policy Review Committee, as well as having served on the 2016 Governor's Local Government Competitiveness Council.

Her experience also includes serving as a senior technology consultant for Accenture where she was involved in firm-wide business and technology implementations for clients that included state governments, state universities, hospitals, and large national corporations. Dr. Gunnlaugsson is currently a principal at Acuitas Economics, where she specializes in statistical analysis and econometric modeling to develop interactive, visual methods to deliver data-driven insights and recommended policy solutions.

Dr. Gunnlaugsson received her Bachelor's and Master's Degrees in Mechanical Engineering from the Massachusetts Institute of Technology and her Ph.D. in Economics from the University of Michigan.

2018-2019 ANNUAL INVESTMENT REPORT

PEGGY G. BOYKIN

CPA, Commissioner

Ex officio member

Mrs. Peggy G. Boykin, CPA, is the Executive Director of the South Carolina Public Employee Benefit Authority (PEBA). Previously, she was the director of the South Carolina Retirement Systems and a member of PEBA's Board of Directors. Mrs. Boykin has also served as Director of Special Projects at the College of Charleston.

A native of Wagener, S.C., Mrs. Boykin earned a bachelor's degree in business administration from the College of Charleston in 1981 and her certified public account (CPA) accreditation in 1985. Also, she is a graduate of the Budget and Control Board's Executive Institute and the Governor's Center at Duke University. Mrs. Boykin received her certified retirement administrator designation in 1999.

Mrs. Boykin is an active member of the American Institute of Certified Public Accountants, the National Council on Teacher Retirement, the National Association of State Retirement Administrators, and the National Association of Government Defined Contribution Administrators.

WILLIAM J. (BILL) CONDON

J.D., M.A., CPA, Commissioner

Appointed by the Governor

Mr. William J. Condon, Jr. (Bill) is a Certified Public Accountant (CPA) and an attorney. After graduating from Clemson University with a B.S. in Accounting, he began his accounting career with Ernst & Young and in short order became a CPA. At the accounting firm, he held positions in the audit and tax departments, serving as an Audit Manager during the last three years of his tenure at E&Y. He managed the audits of clients in various industries including audits of companies in the financial services industry.

His experience also includes having served as Chief Financial Officer for a government agency. In this role, he oversaw the banking and investment activities as well as the Accounting, Human Resources, and Information Technology activities at the agency. Eventually, Mr. Condon transitioned from the public sector back to the private sector, serving as a Senior Consultant for a Silicon Valley-based software development company that serviced clients throughout North America.

Mr. Condon began his legal career as a trial attorney for the United States Department of Justice litigating civil rights cases. Looking to blend his accounting and finance experience with his legal skills, he later served as a securities-enforcement attorney for the South Carolina Attorney General's Office, as a securities-compliance and litigation attorney in private practice, and as a tax attorney litigating significant tax cases for the South Carolina Department of Revenue.

RETIREMENT SYSTEM INVESTMENT COMMISSION

Today, Mr. Condon is an attorney for the South Carolina State Treasurer's Office where he has served both as Deputy General Counsel and the General Counsel and has worked with many large financial institutions on custody, securities lending, Section 529 college savings program, and other banking and investment matters.

Mr. Condon earned his Juris Doctor and Master in Public Policy degrees from Regent University.

ALLEN GILLESPIE

CFA, Commissioner

Appointed by the Chairman of House Ways & Means

Mr. Allen Gillespie, a native of Anderson, South Carolina, is the chief investment officer for FinTrust Capital Advisors. He has been in the investment industry since 1995, specializing in asset allocation research, manager due diligence, individual security analysis, and custom client portfolio management.

Mr. Gillespie graduated cum laude from Washington & Lee University, earning a bachelor's in Economics. He is also a member of the Omicron Delta Epsilon, Economics Honor Society. He has also been recognized as Institutional Investor's 25 Rising Starts of Hedge Funds, a Liberty Fellow, and is an accomplished writer in several financial journals.

He has served as a CFA Institute Research Challenge Mentor to Wofford College and University of Alabama. Mr. Gillespie holds FINRA Series 4, 7, 24, 53, 63, 65, 86, and 87 licenses.

Mr. Gillespie serves his community as the Chair of the Endowment Board for Meals on Wheels of Greenville and is a member of the GAMAC Endowment Board.

EDWARD GIOBBE

MBA, Commissioner

Appointed by the Governor

Mr. Edward Giobbe is a resident of Aiken, South Carolina. He has 37 years of experience in financial services and a diverse background that includes equities and fixed income in the areas of trading, sales, and investment banking.

He was a principal in the Fixed Income Division of Morgan Stanley Inc., in New York from 1978 until his retirement in 1995. Mr. Giobbe served as a member of the City of Aiken Planning Commission and remains active in community affairs.

While working at Morgan Stanley, Mr. Giobbe primarily worked with institutional sales specializing in major financial institutions such as bank trust departments, money managers, mutual funds, insurance companies, and pension funds.

2018-2019 ANNUAL INVESTMENT REPORT

Mr. Giobbe is a retired Captain in the United States Army Reserve, completing active duty in the United States and in Japan. He earned a Bachelor's degree from Yale University and MBA from the New York University Graduate School of Business Administration.

WILLIAM J. (BILL) HANCOCK

CPA, Commissioner

Appointed by the State Treasurer

Mr. William H. (Bill) Hancock, CPA, is a certified public accountant and the managing partner of the Brittingham Group, LLC located in West Columbia, South Carolina. He brings more than 25 years of experience in financial and accounting services.

He joined the Brittingham Group as a staff accountant in 1992 and was elected managing partner in 2013. For over 10 years he was responsible for the Firm's investment advisory/financial planning practice before successfully selling it, requiring him to surrender his Series 7 and 66 securities and South Carolina insurance licenses. Today, he continues to provide income tax planning and preparation services for individuals and business as well as providing audit/attest services for municipalities, non-profits, special purpose districts, and various political subdivisions.

As an active member of the community, Mr. Hancock is an Elder at Forest Lake Presbyterian Church, has served as the Chair of the Finance committee, serves on the Endowment committee, and is on several ad hoc committees for the church. He also serves on the board of directors and the finance committee for Presbyterian Communities of South Carolina (PCSC). PCSC has six Life Plan Communities across South Carolina and is a compassionate Christian ministry dedicated to enriching the quality of life for seniors of all faiths.

For over 20 years, he was a member of the Columbia East Rotary Club serving as Club Treasurer for most of that time. In 2012, he was appointed by South Carolina Governor Nikki Haley to be a Commissioner for the East Richland County Public Service District before resigning to serve as a Commissioner for the RSIC.

A proud graduate of the Citadel, Mr. Hancock graduated in 1990 with a Bachelor of Science degree in Business Administration with a concentration in Accounting. He also studied at the University of South Carolina's Moore School of Business.

Mr. Hancock resides in Columbia, South Carolina with his wife, Lori, a high school English teacher and their two daughters. In his spare time Mr. Hancock enjoys hunting and playing golf.

REYNOLDS WILLIAMS

J.D., CFP, Commissioner

Appointed by the Chairman of Senate Finance

Mr. Reynolds Williams is a native of Mullins, South Carolina.

For his service in Vietnam, he was awarded the Bronze Star and the Combat Infantry Badge.

Mr. Williams graduated cum laude from the Baylor School for Boys in Chattanooga, Tennessee, was an Echols Scholar at the University of Virginia, and earned his Juris Doctor from the University of South Carolina.

Mr. Williams is a recipient of the American Jurisprudence Award in Contract Law and was admitted into all state and federal courts in South Carolina, the United States Court of Appeals for the Fourth Circuit, and the U.S. Supreme Court.

He has served as chairman of several arbitration panels of the National Association of Securities Dealers, the American Arbitration Association, Florence County Election Commission, the Duke Private Adjudication Center, Board Chairman of Florence National Bank, and Greater Florence Chamber of Commerce.

He has also served as President of the Florence Rotary Club; on the school board at All Saints; Board of Directors of Community Bankshares; and the Board of Directors of Florence County Progress.

Mr. Williams was a Faculty Seminar Participant at the 1991 U.S. Army War College. He also served as Director of IRIX Pharmaceuticals.

Mr. Williams was the President of the S.C. Chapter of the Federalist Society and is a member of the Defense Research Institute, American Board of Trial Advocates, and South Carolina Defense Trial Attorneys Association.

He has served as Vice-Chairman of the State Board for Technical and Comprehensive Education.

Mr. Williams is recognized in the following books: Leading Lawyers in America, Super Lawyers, and The Best Lawyers in America. In 1999, Governor Beasley awarded Mr. Williams the Order of the Palmetto, South Carolina's highest honor, for his public service, civic responsibility, and friendship to the State. In 2001, he was named Business Person of the Year by the Greater Florence Chamber of Commerce.

The University of South Carolina School of Law recognized Williams as a Compleat Lawyer, for his 30+ years of "exemplary service" to the bar and the public.

A former Certified Financial Planner (CFP®), Mr. Williams was recognized in a Concurrent Resolution of the S.C. House and Senate for his leadership during the RSIC's formative years.

POLICY ALLOCATION

POLICY

The Commission manages the Systems' assets with a long-term horizon and seeks to earn an appropriate risk-adjusted return with consideration to the goals and circumstances of the Systems and in the exclusive interest of the members and beneficiaries. Among the decisions the Commission can make, asset allocation has the most significant impact on the portfolio's return, risk profile and cost, and is reviewed annually as part of the development of the Annual Investment Plan (AIP).

Based on the Commission's determination of the appropriate risk tolerance for the Portfolio and its long-term return expectations, it has authorized the following Policy Asset Allocation. This includes target allocations and ranges for each asset class that were adopted by the Commission for the 2018-2019 Fiscal Year.

Asset Class	Policy Targets	Target Ranges	Policy Benchmark
Rate Sensitive	14	4-24	
Cash and Short Duration	1	0-7	ICE BofA Merrill Lynch 3-Month Treasury Bill Index
Core Bonds	13	6-20	Weighted average of underlying sub-asset class targets in policy portfolio
Nominal Investment Grade Bonds	6		Bloomberg Barclays U.S. Aggregate Bond Index
Treasuries	5		
TIPS	2		Bloomberg Barclays US Treasury Inflation Notes TR Index Value Unhedged USD
Credit	15	10-20	
High Yield Bonds / Bank Loans ¹	4	0-8	50% S&P LSTA Leveraged Loan Index / 50% Bloomberg Barclays U.S. Corp. High Yield 2% Issuer Capped
Private Debt ^{1,5}	7	3-11	S&P LSTA Leveraged Loan Index + 150 BPs on a 3-month lag
Emerging Market Debt	4	2-6	50% JP Morgan EMBI Global Diversified (USD) / 50% JP Morgan GBI-EM Global Diversified (Local)
Equities	51	31-59	
Global Public Equity ^{1,2}	42	22-50	Weighted average of underlying sub-asset class targets in policy portfolio
US Equity ²	18		MSCI US IMI Net
Developed Market Equity (Non-U.S.) ²	11		MSCI WORLD EX US IMI Net
Emerging Market Equity ²	6		MSCI Emerging IMI Net
Equity Options	7	5-9	50% CBOE S&P 500 Putwrite / 50% CBOE S&P 500 Buywrite
Private Equity ^{1,5}	9	5-13	80% Russell 3000 Index / 20% MSCI EAFE Index plus 300 BPs, on a 3 month lag
Real Assets	12	7-17	
Real Estate	9	5-13	Weighted average of underlying sub-asset class targets in policy portfolio
Private Real Estate ^{1,5}	8		NCREIF ODCE Net Index + 100 basis Points
Public Real Estate (REITs) ¹	1		FTSE NAREIT Equity REITs Index
Infrastructure	3	1-5	Weighted average of underlying sub-asset class targets in policy portfolio
Public Infrastructure ¹	1		Dow Jones Brookfield Global Infrastructure Index
Private infrastructure ^{1,5}	2		Dow Jones Brookfield Global Infrastructure Index
Opportunistic	18		
Global Tactical Asset Allocation	7	3-11	Total System Policy Benchmark ex-Private Markets and Portable Alpha ³
Other Opportunistic and Risk Parity	1	0-3	Total System Policy Benchmark ex-Private Markets and Portable Alpha ³
Portable Alpha Hedge Funds ⁴	10	0-12	ICE BofA Merrill Lynch 3-Month T-Bills + 250BPS

¹The target weights to Private Equity, Private Debt, Real Estate, and Private Infrastructure will be equal to their actual flow adjusted weights, reported by the custodial bank, as of the prior month end. In the case of Private Equity, the use of the actual flow adjusted weight will affect the target allocation to Global Public Equity (excluding Equity Options). For example, in FY 18-19, the combined target weight of both of these asset classes shall equal 44% of the Plan. For Private Debt, the use of the actual flow adjusted weight will affect the target allocation to HY Bonds and Bank Loans, such that the combined target weight of both asset classes in FY 18-19 shall equal 11% of the Plan. For private market Real Estate, the use of the actual flow adjusted weight will affect the target allocation to public market Real Estate (REITs), such that the combined target weight of both asset classes in FY 18-19 shall equal 9% of the Plan. For Private Market Infrastructure, the use of the actual flow adjusted weight will affect the target allocation to public infrastructure, such that the combined target weight of both asset classes in FY 18-19 shall equal 3% of the Plan.

²Global Public Equity (excluding equity options) target portfolio's floating target is comprised of weighted regional underlying sub-asset class components: 51.4% MSCI US IMI Index for U.S. Equity, 31.4% MSCI World ex-US IMI Index for Developed Market Equity (non-U.S.), and 17.1% MSCI Emerging Markets IMI Index for Emerging Market Equity.

³Floating Targets between public and private markets do not apply to Opportunistic Benchmark. Weights are fixed at long term policy targets.

⁴Portable Alpha Hedge Funds are included in the Opportunistic target allocation and the Policy benchmark, and reported as gross exposure used as collateral supporting the Overlay program and nets to zero when calculating the total Plan allocation. Total Hedge Funds, including all hedge funds used in portable alpha implementation, are capped at 20 percent of total assets.

⁵Staff and Consultant will notify the Commission if Private Markets assets exceed 25 percent of total assets.

¹⁴Hedge Funds Portable Alpha reported as gross exposure but, as collateral support to the overlay program, net to zero when calculating the total plan.

* TIPS exposure is gained synthetically through the overlay program, therefore the asset class does not appear in the performance schedule. TIPS represents approximately 2% of the Plan market value based on notional exposure of \$615,675,161.92

SECURITIES LENDING

PORTFOLIO STRUCTURE

The Portfolio currently participates in a securities lending program, managed by the BNYMellon (“Securities Lending Program”), whereby securities are loaned for the purpose of generating additional income. BNYMellon is responsible for making loans of securities to various broker-dealers and collecting cash and non-cash collateral. If the collateral value falls below a predetermined level, the borrower must post additional collateral. The cash collateral is invested in short duration securities and monitored on an ongoing basis. In conjunction with generating revenue, the collateral pool seeks to maintain a net asset value (NAV) of \$1.00, which is determined by dividing the market value of the assets by the cost of those assets.

PORTFOLIO DEVELOPMENTS

The Securities Lending Program (Program) continues to employ very conservative guidelines on both the lending and re-investment transaction. The re-investment of the cash collateral is restricted to short duration, very low risk securities. The gross securities lending revenue for the fiscal year was approximately \$3.0 million, an increase from \$2.0 million in the prior year.

On June 30, 2019, the NAV of the collateral pool was \$0.48. The market value of the collateral pool was approximately \$41.2 million, with an amortized cost of approximately \$86.7 million.

STATISTICS

Asset Class	Average Lendable Securities (MV)	Average Utilization (MV)	Average Utilization	Average Lending Spread*

RETIREMENT SYSTEM INVESTMENT COMMISSION

EXPENSES

OVERVIEW

For fiscal year 2019, total investment and administrative expenses decreased by \$45.96 million to \$328.02 million. As a percent of total assets, total expenses decreased to 1.03% of Total Plan Assets. Investment management fees and expenses for fiscal year 2019 decreased by \$48.71 million to \$310.24 million. The primary contributing factor to this decrease was lower performance, relative to fiscal year 2018, in asset classes that utilize performance fee structures. Bank Fees and Investment Expense, which are associated with custodied accounts and primarily consist of commissions on futures contracts and bank fees, increased by \$2.08 million to \$5.49 million. General administrative expenses increased by \$0.68 million to \$12.3 million.

Brokerage fees are broken out separately as commissions paid to brokers are considered a part of the investment cost basis and, therefore, not reported in investment management expenses.

Investment management fees and expenses generally consists of three categories; investment management fees, performance fees including carried interest allocation, and other investing expenses such as organizational costs in limited partnership structures. Investment management fees are generally a percentage fee based on the assets under management and paid to the manager of the fund for providing the service of investing the assets. Investment management fees are reported net of offsets which have the effect of reducing this total. Performance fees, including carried interest allocation, are a share of the profits from an investment or fund and is paid to the investment manager to create an alignment of interests.

Investment management fees and expenses are either paid by invoice or netted from investment assets. Under Governmental Accounting Standards Board (GASB) accounting guidance, "Investment-related costs should be reported as investment expense if they are separable from (a) investment income and (b) the administrative expense of the pension plan."* RSIC makes a good faith attempt to disaggregate netted fee amounts that are not necessarily readily separable from investment income. The RSIC collects and aggregates the netted investment fees and checks for reasonableness in order to disclose fees that would not otherwise be disclosed. In order to compare investment expense as reported by the Systems with investment management costs reported by other public pension plans, an understanding of the actual fees and expenses included in any comparative reports is necessary. Additionally, investment plan composition directly influences the fee structure of a plan and adjustments for differences in plan asset allocation is necessary before conclusions can be reached from such comparisons.

SCHEDULE OF INVESTMENT EXPENSES

¹ Asset Class NAV is net of the Notional Exposure of the Beta Overlay program.

² Plan Returns are time-weighted, total return calculations, net of fees and expenses. All returns are expressed in U.S. Dollars. Returns generated from synthetic exposure through the Beta Overlay Program are reflected in the total Plan return and asset class segment returns.

³ Overlay and top level strategic partnership fees are allocated to asset classes proportionately by NAV.

⁴ Fees expressed as a percentage of the ending Asset Class NAV.

⁵ Fees expressed as a percentage of gross exposure to the Beta Overlay program of \$3,086,087,460.

⁶ Performance Fees includes accrued carried interest.

Amounts expressed in thousands and thus, may not add up to totals due to rounding.

DELEGATION AUTHORITY

INVESTMENT AUTHORITY DELEGATION

Pursuant to Section 9-16-330(B) of the 1976 South Carolina Code of Laws, the Commission delegates to the Chief Investment Officer the final authority to invest subject to the oversight of the Chief Executive Officer and the requirements and limitations of the Investment Authority Delegation Policy. Investment Authority Delegation allows the RSIC to make investments without requiring prior approval of the Commission provided the investment process adheres to the RSIC's Due Diligence Guidelines and Policies. The investment process for any investment made pursuant to this policy must be substantially similar to the investment process employed prior to the adoption of this policy except for the requirement that the Commission approve the investment prior to the closing the investment. The size of an individual investment made pursuant to the policy is subject to specific limitations provided for the asset class applicable to the investment. An investment can be made pursuant to this policy if it a) is not the initial investment in a new asset class, b) the majority of the underlying assets comprising the investment have been previously included in the investment portfolio, and c) the strategy to be employed by the investment manager is substantially similar to an investment that has been previously subject to the Commission's investment due diligence process.

The following table is presented Pursuant to Section 9-16-90(B)(6) of the 1976 South Carolina Code of laws:

¹Represents the date on which the RSIC executed the contracts and not the date the investment was funded.

²Returns are time-weighted, total return calculations, net of fees and expenses. All returns are expressed in U.S. Dollars. Periods greater than one year are annualized. Additional performance information can be found in the Manager Returns section of this report. Time-weighted methodology may not be an appropriate performance measure for private markets investments. Zero performance indicates no mark-to-market valuations have been received as of fiscal year end.

³Total fees are for the fiscal year and include management fees, performance fees including accrued carried interest, and other expenses.

⁴Performance inception begins with the first full month of performance. "n/a" signifies no full month of performance prior to fiscal year end.

⁵Negative NAV reflects valuations where the general partner has made investments and/or incurred expenses but has not yet called capital from limited partners.

Amounts expressed in thousands and thus, may not add up to totals due to rounding.

RISK

OVERVIEW

The Commission will fulfill its fiduciary responsibility by prudently managing the assets held in trust for the sole benefit of the participants and beneficiaries of the Systems. It will seek superior long-term investment results at a reasonable level of risk.

The RSIC invests the assets of the trust in order to earn the required rate of return (7.25 percent as of fiscal year end) over time. With short-term interest rates at historic lows, in order to achieve this goal, an investor is required to expose his or her assets to risk. Instead of pooling one's risk, a prudent investor seeks to balance his or her risks in order to reduce the risk of severe loss. This principle of diversification is central to the RSIC's portfolio asset allocation.

The RSIC also believes that over time, an investor earns a return that is commensurate with the level of risk taken. Risk, in this sense, is a term that refers broadly to an investment's risk of loss. The RSIC typically uses the standard deviation of returns in order to quantify this economic risk of an asset, strategy, asset class, or the broad portfolio. However, there are other risks that are much more difficult to measure (and therefore, mitigate). The RSIC believes risks can be reduced through diversification, a strong due diligence process, ongoing monitoring, and risk management. Some examples of these risks include:

CONCENTRATION OF CREDIT RISK - INVESTMENTS

Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer or counterparty. The Systems' policy for reducing this risk is to comply with the Statement of Investment Objectives and Policies as amended and adopted by the Commission which states that "except that no limitations on issues and issuers shall apply to obligations of the U.S. Government and Federal Agencies, the domestic fixed income portfolio shall contain no more than 6 percent exposure to any single issuer." As of June 30, 2019, there is no single issuer exposure within the portfolio that comprises 5 percent or more of the overall portfolio.

CREDIT RISK OF DEBT SECURITIES

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Systems. As a matter of practice, there are no overarching limitations for credit risk exposures within the overall fixed income portfolio.

Each individual portfolio within fixed income is managed in accordance with investment guidelines that are specific as to permissible credit quality ranges, exposure levels within individual quality tiers, and average credit quality. Within high yield portfolios, a quality rating of lower than C is not permissible in any of the fixed income guidelines except in those circumstances of downgrades subsequent to purchase, in which case the investment manager is responsible for communicating the downgrade to the Commission's consultant and staff.

CUSTODIAL CREDIT RISK - INVESTMENTS

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty, the Systems will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. Investing for the Systems is governed by Section 16, Article X of the South Carolina Constitution and Section 9-1-1310(B) and Title 9 Section 16 of the South Carolina Code of Laws. Funds held in trust for the Systems may be invested and reinvested in a variety of instruments including, but not limited to, fixed income instruments of the United States, foreign fixed income obligations, swaps, forward contracts, futures and options, domestic and international equity securities, private equity, real estate, and fund of funds.

CUSTODIAL CREDIT RISK – DEPOSITS

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Systems' deposits may not be recovered. As prescribed by South Carolina state statute, the South Carolina Public Employee Benefit Authority (PEBA) is the custodian of all deposits and is responsible for securing all deposits held by banks. These deposits are secured by deposit insurance, surety bonds, collateral securities, or letters of credit to protect the state against loss in the event of insolvency or liquidation of the institution or for any other cause. Deposits are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 or collateralized with securities held by the state or its agent in PEBA's name as custodian.

EQUITY RISK

Equity risk refers to the financial risk of loss that results from ownership. Equity risk is typically observed using the standard deviation of returns.

FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The Systems participate in foreign markets to diversify assets, reduce risk and enhance returns. Currency forwards are used to manage currency fluctuations and are permitted by investment policy. Policy, however, forbids speculating in forwards and other derivatives.

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment or portfolio. While the RSIC has no formal interest rate risk policy, interest rate risk is observed within the portfolio using effective duration (option adjusted duration), which is a measure of the price sensitivity of a bond or a portfolio of bonds to interest rate movements given a 100 basis point change in interest rates. Effective duration takes into account that expected cash flows will fluctuate as interest rates change and provides a measure of risk that changes proportionately with market rates. Investment guidelines may specify the degree of interest rate risk taken versus the benchmark within each fixed income portfolio.

LEVERAGE RISK

Leverage is the use of borrowed capital to increase potential investment returns. While the trust is not allowed to utilize leverage at the total plan level, certain investment vehicles, in particular alternative investment funds, can utilize leverage. The trust itself, however is not levered at the total plan level, and the total loss exposure to the trust is limited to the capital invested/committed to the investment vehicle.

LIQUIDITY RISK

Liquidity risk is the risk of having limited access to funds, resulting from a lack of market liquidity or restrictions on the sale of ownership interests. The term “liquidity risk” distinguishes a form of market risk which typically occurs when demand for a given security is weak, or the supply of a security is low. Liquidity risk is higher for “private market” investments, such as private equity and real estate funds. While so-called “secondary sales”—privately arranged transfers of interests in these investments—are an increasingly viable option, selling these interests can be subject to restrictions and may require the seller to accept a discount to the investment’s valuation. There is no publicly available exchange or marketplace on which to liquidate these ownership interests.

VALUATION RISK

The fair values of alternative investments including private equity, private debt, hedge funds, real estate and commodities, for which daily market values are not readily ascertainable, are valued in good faith based on the most recent financial information available for the underlying companies and reported by the investment managers at the measurement date, adjusted for subsequent cash flow activities through June 30, 2019. The estimated fair value of these investments may differ from values that would have been used had a liquid public market existed.
