<sup>1</sup>All returns are from Bank of New York Mellon (BNYM) and are time-weighted, total return calculations, net of fees and expenses. All returns are expressed in U.S. dollars. Periods greater than one year are annualized. Fiscal Year ends June 30th. Policy benchmark is the blend of the asset class policy benchmarks using policy weights. Asset class benchmarks and policy weights are reviewed annually by the Commission's consultant, adopted by the Commission, and have changed over time. The policy benchmark return history represents a blend of these past policies.

<sup>2</sup>Effective 10/1/2005, the State Retirement System Preservation and Investment Reform Act established the RSIC and devolved fiduciary responsibility for investment and management of the assets of the South Carolina Retirement Systems upon RSIC. <sup>3</sup>Sub asset-class allocations and returns are based on values obtained from BNYM and adjusted for overlay exposures provided by Russell Investments. Sub-asset class percentages may not add up to asset class percentages and allocation percentages may not add up to 100% due to rounding.
